

Fujairah F2 O&M Company Environmental Policy Statement

Policy Introduction

Good Environmental performance is critical to everyone who works within our business. We are committed to achieving the best possible Environmental performance.

Policy Objectives

- We will strive to ensure pollution prevention is our main objective within the organization
- We will comply with all applicable environmental regulations and work constructively with appropriate regulatory agencies to resolve any environmental compliance concerns.
- We will use natural resources as efficiently as possible and reuse and recycle resources whenever cost-effective to do so.
- We will integrate environmental, social and economic factors into business decisions wherever it is practical.
- We will evaluate, and take steps to minimise, the impact of our operations on biodiversity.
- We will implement environmental management systems to drive a proactive and engaged environmental management culture throughout the organisation.
- We will set environmental objectives to promote continual improvement.
- We will seek input from and work constructively with our employees, neighbours, regulators, investors and other stakeholders in managing our environmental performance.
- We will undertake training with our employees and contractors to raise awareness on their environmental responsibilities.
- We will ensure suitable resources are in place to deal with an emergency and help minimise the impact to the environment.
- We will report on our environmental performance accurately and openly.
